# Holdfast Bay redevelopment must include KI ferry terminal

**Thursday 5 September 2019:** Kangaroo Island Mayor Michael Pengilly is calling on the State Government and Holdfast Bay Council to incorporate a ferry terminal in the new masterplan for the Holdfast Bay jetty precinct.

“The Jetty Road Glenelg Masterplan is an exciting proposal and it was great to see phase one, i.e. the Chapel Street and Hindmarsh Lane plaza and community hub get up with the support of the State Government through the Minister for Planning.

“It demonstrates a big commitment to the future and economic sustainability of Glenelg as it will bring a heightened level of vibrancy to the area and attract many more tourists as a premier foreshore destination. It could also manifestly assist Kangaroo Island tourism.

“The Jetty Redevelopment proposal must include potential berthing capacity for a fast ferry to Kangaroo Island.

“There is a strong economic case for Holdfast Bay to have Glenelg as *the* go to destination for travelers to and from Kangaroo Island,” said Mr Pengilly.
