

## Media Release

### Seeking ROIs for accommodation register - airport upgrade

**22 September 2016:** The spades will be hitting the dirt at Kangaroo Island Airport in December 2016 and while much of the work will be undertaken by local tradespeople, a specialist contractor will be appointed to undertake the lengthening and strengthening of the runway, taxiways, apron and associated lighting works and this contract will run from early December 2016 to mid-April 2017.

A separate contract will be in place for the construction of the Terminal and works associated with this and it is hoped and expected that local contractors will manage this build. It is anticipated that this tender will be awarded in late November.

Kangaroo Island Council is looking to identify a pool of suitable accommodation locations to be used by contractors for the period December 2016 to April 2017 and is inviting Registration of Interest from accommodation providers.

“We believe that up to 30 people may need to be accommodated during the project and we are conscious that this is a busy time for most providers anyway,” said Andrew Boardman, CEO Kangaroo Island Council.

When the register of interest has been compiled, the list will be made available to the contractors who can liaise directly with accommodation providers.

It is anticipated that bookings will be confirmed from early November 2016.

The accommodation information required for the Register will include location, type, self-contained or not, number of rooms, furnished/unfurnished, rates, additional costs, and features/inclusions e.g. air conditioning.

The Register of Interest forms can be accessed from [www.kangarooisland.sa.gov.au/tenders](http://www.kangarooisland.sa.gov.au/tenders) or picked up from Council’s customer service desk in Kingscote.

The forms registering interest must be delivered to Council by email ([kicouncil@kicouncil.sa.gov.au](mailto:kicouncil@kicouncil.sa.gov.au)) prior to 4:00pm Thursday 13 October 2016 and addressed to:

Register of Interest for Provision of Accommodation – Airport Contractors.
